Hi Fenix,

I just got the internet back up, so haven't yet looked at Don's comments.

Attached are my comments & attachments in a single PDF file on letter head. Let me know your thoughts. I tried to stay at a relatively high level so that the key themes might better come through.

Best regards.

FYI - good write up from Don Thomas. I'm seeing some familiar themes here.

Fenix

Hi Fenix,

Sorry to take so long to get this done - too many things going on to keep up. I provided the summary I discussed on the phone as well as my list of hydrogeologic questions that I believe that AECOM/GSI will ultimately have to answer satisfactorily in order to provide a credible risk assessment.

Don
